

Welcome to the Geography Department at Salesian College. We follow the Edexcel course ([Edexcel](#)) and we're looking forward to getting to know you better in September; here are a few ideas to help you get ready for joining us.....

Read: Download the free sample, [32 Stops](#) by Danny Dorling (great for understanding Diverse Places), and see if you can write a chapter for your own postcode.

Follow on 

The Economist, National Geographic, WEF, BBC news, Quakefeed, the GA and RGS for up-to-date stories.

Create!

Use the time-lapse option on a smartphone and take a 30-minute walk from your house. How diverse is your local area? As you walk back take photos to create a collage to show how the built environment changes.

Have a go at this [competition](#) from the RGS and bring in your entry in September. Remember you will be in the sixth form category.
